Company Introduction

Sudutloka is a trusted home decor supplier from Indonesia, specializing in natural and handcrafted products. Our collections include premium teak wood furniture, rattan lampshades, and a wide variety of other eco-friendly home decorations.

With a well-equipped production facility, we are capable of handling large-scale orders while maintaining consistent quality, precision, and craftsmanship. We are committed to using sustainable natural materials and environmentally friendly practices throughout our production process.

Sudutloka offers competitive pricing, on-time delivery, and a strong focus on customer satisfaction. Our mission is to deliver natural beauty to homes around the world with products that combine aesthetic value and long-lasting durability.

sudutloka

Production Capacity and International Standards

Sudutloka is a company with large-scale production capacity, supported by skilled and experienced artisans. Based in Yogyakarta, we manage an organized production process with high-quality standards to consistently fulfill large-volume orders on time. For wood-based products, Sudutloka is certified with the Timber Legality Verification System (SVLK), reflecting our commitment to environmental sustainability and compliance with export regulations. With quality and precision maintained throughout every stage of production, Sudutloka is a trusted partner for international-standard home decor and furniture needs.

sudutloka

Certified & Legal Natural Materials

Certified and Legal Natural Materials from Sudutloka

Sudutloka is committed to using only certified, legal, and eco-friendly natural materials in every product we create. We source from trusted suppliers who ensure that materials such as rattan, seagrass, banana fiber, pandan weaving, natural raffia, and teak wood are obtained sustainably and in compliance with international export regulations.

All wood used in our products is backed by legal and sustainable sourcing certifications, while our finishing materials (such as paints and coatings) are Green Label certified, ensuring environmental safety and health standards. By choosing Sudutloka, you invest in both high-quality craftsmanship and the future of our planet.

Our production house

At Sudutloka, we take pride in our professionally managed production facility, designed to meet international standards in furniture manufacturing. Located in Indonesia, our factory is fully equipped with modern tools and skilled craftsmen who specialize in creating high-quality, handcrafted furniture.

We focus on using premium-grade teak wood and natural materials to produce durable, beautiful, and sustainable pieces. From raw material selection to final finishing, every step in our production process is carried out with attention to detail, quality control, and efficiency.

Our facility is capable of handling large-scale orders without compromising on quality or lead time. With a strong commitment to precision, sustainability, and innovation, Sudutloka ensures that each piece of furniture meets the expectations of international clients and reflects the rich craftsmanship of Indonesian artisans.

High-Quality, Weather-Resistant Natural Home Decor

At Sudutloka, we proudly produce high-quality home decor products made from natural materials such as rattan, seagrass, agel (natural raffia), and banana bark. Each item is carefully handcrafted by experienced artisans, ensuring a unique blend of traditional techniques and modern design.

Our products are crafted to meet international quality standards and are designed to be durable, with strong resistance to weather, mold, and pests. This makes them ideal for both indoor and semi-outdoor use, maintaining beauty and functionality over time.

We are committed to using eco-friendly materials and sustainable production practices, offering clients around the world decor items that are not only aesthetically pleasing, but also environmentally responsible and built to last.

The background image shows a workshop or factory floor. In the foreground, a cylindrical stool made of stacked teak wood roots sits on a light-colored tiled floor. In the background, two workers are visible: one in a grey shirt and dark shorts is bent over a workbench, and another in a white shirt and a blue face mask stands further back. The room is filled with various teak wood roots and furniture pieces, creating a warm, industrial atmosphere.
