

Jute, Cotton & Juco Bags

Build your brand **sustainably,**
With creativity and purpose.

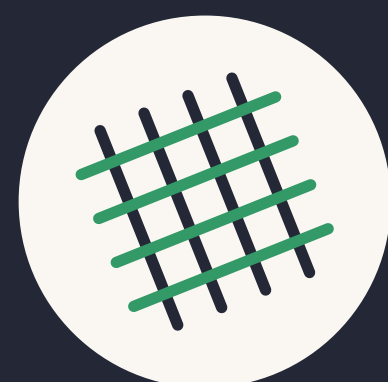

JUTE NATURALS

We are the world's largest distributor of eco-friendly jute, juco, and cotton bags, offering unmatched quality and unbeatable prices. Specializing in promotional and customizable bags, we ensure immediate delivery worldwide. Choose us for sustainable solutions that promote your brand while supporting a greener planet with reliable, fast, and affordable service.

We use local suppliers whenever we can and work with our local community on initiatives to protect our environment. The Jute industry provides employment to 0.37 million workers and supports the livelihood of around 4 million farm families across India.*

We are committed to nurturing excellent relationships with our customers, team, suppliers, communities, and the planet.

Jute Naturals bags combine sustainability and practicality, offering an eco-friendly alternative to traditional bags that harm the environment. Designed to be both stylish and functional, these bags provide a sophisticated solution that not only supports the planet but also meets your everyday needs with elegance and utility.

What is Jute?

Often called “**The Golden Fibre**” due to its bold natural colour, Jute is an affordable, highly versatile, strong, and eco-friendly material.

Jute bags are sustainable, ethical, reusable & biodegradable which sets these products apart from the ubiquitous plastic & paper bags that we still rely on too much. Jute is a truly wonderful material, grown and cultivated in India using traditional methods to produce a fiber that is as hard-wearing as it is versatile and provides a genuine, cost-effective solution to the outdated, polluting, and energy-hungry production of plastic. We offer a wide range of jute bags.

We believe in Buy Green to Save Green.

Jute is not just a material; it's a story of resilience and responsibility. It empowers communities, supports sustainable farming, and offers the world a genuine alternative to plastic and non-biodegradable materials. Choosing jute is a conscious step toward a greener planet and a better tomorrow. This is the **Future**.

Crafting Jute

The Jute Plant

Our bags begin life in India as a fast growing, sustainable plant called jute. Mature jute is harvested by hand and bundled together. Later the leaves are removed (defoliation).

Dried & Delivered

The stripped fibres are air-dried in the sun for 2-3 days. It is then tied and bundled up and loaded onto lorries by the local farmers, where they are transported to the mill to be processed.

Jute Fabric

The yarn is woven into the jute fabric that is used for our bags and a number of other textiles.

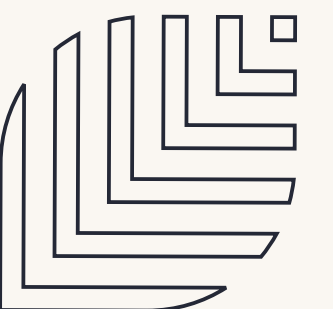

Retting

The harvested stalks are submerged for around 20 days, during which natural microorganisms decompose the plant material, allowing the fibers to be separated in a process known as retting.

At the Mill

The fibres go through many processes such as selection, softening, carding and spinning. The yarn can then, if required, be dyed to any colour.

Creating Your Bag

Expert Support

We will provide you with dedicated expert support and personalized guidance to ensure you make the right product choice that perfectly aligns with your company ethos, budget, specific requirements, and desired timescale.

Approval

Using our visualization techniques, you will receive a high-quality visual proof for your inspection and approval.

Customer Service

We work with established and reliable delivery partners, and our commitment doesn't end once you've received your bags. We'll ensure you are 100% satisfied with your bags and will reach out to you at pre-agreed milestones.

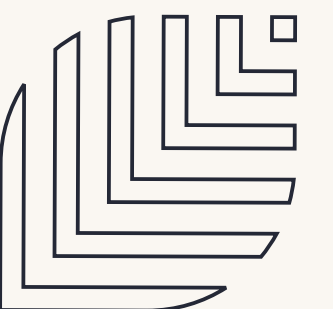

Design Support

We will discuss your design ideas in detail, and by collaborating closely with our expert in-house Design team, we will skillfully transform your vision into reality.

Production

Following your approval, we can proceed with production or, upon request, provide a sample for approval.

Jute Bags

Carry Bag

This bag works perfectly for daily use and is highly convenient for shopping and carrying essentials.

Tote Bag

Crafted from natural jute, these tote bags are versatile and ideal for shopping, errands, or casual outings.

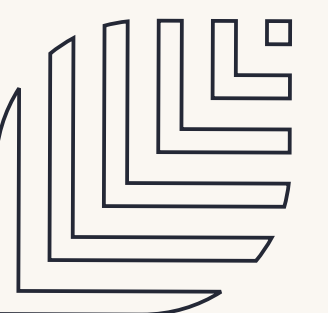

Zip Bag

There is a zipclosure for safety of Goods & Essentials.

Hamper Bag

These elegant jute hamper bags combine functionality with a professional aesthetic, perfect for high-quality presentations, gifts, events, branding, and promotions.

Jute Bags

Bottle Bag

Crafted from durable jute, our bottle bags are a sustainable and stylish solution for gifting bottles, ideal for all occasions.

Bottle Bag-Window

Featuring a clear front panel, our jute bottle bags elegantly display and carry bottles, ideal for gifting or retail use.

Draw-string Bag

Versatile and eco-friendly, our drawstring bags are perfect for storing everyday essentials with a secure and stylish closure.

Zipper Pouch

Keep your items organized and safe with our sleek zipper pouches, designed for convenience, durability, and easy access while on the go, offering both style and functionality.

Jute Bags

Conference Bag

Practical and professional, our conference bags offer a stylish way to carry your essentials to meetings, events, or business trips.

Laptop Bag

Protect your device in style with our laptop bags, crafted for durability and designed to keep your laptop safe & secure.

Backpack

Our versatile backpacks combine functionality and comfort, offering ample storage and a secure, hands-free experience.

File Folder

Keep your documents organized and protected with our sleek file folders, offering a convenient and stylish way to store and transport important papers with ease.

Juco Bags

Carry Bag

Crafted from a blend of jute and cotton for strength and style. They are perfect for shopping, gifting, and daily use, combining sustainability with elegance.

Tote Bag

Juco tote bags are spacious and eco-friendly, offering durability and a chic look. They combine style with sustainability.

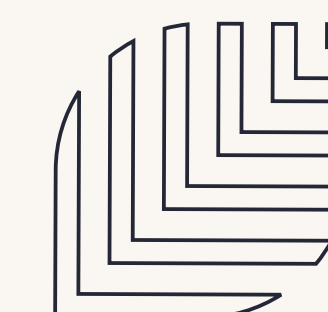

Zip Bag

Made from a durable blend of jute and cotton with a secure zip closure. They are ideal for organizing essentials, offering a sustainable and reusable storage solution.

Pouches

Juco pouches are compact, reusable, and elegant, made from a jute-cotton blend for strength and charm. Ideal for storing makeup, toiletries or small essentials.

Cotton Bags

Carry Bag

Cotton carry bags are lightweight, durable, and reusable, making them an eco-friendly alternative to plastic bags.

Zip Bag

Zip bags are practical and secure, featuring a convenient zipper closure to keep items safe.

Gusseted Bag

Gusseted bags are designed with expandable sides or bottoms, offering extra storage space and better structure. They are ideal for carrying bulkier items while maintaining an elegant and practical appearance.

Tote Bag

Tote bags are stylish, spacious, and multi-purpose, perfect for shopping, work, or casual outings. Made from sustainable materials, they combine functionality with eco-conscious living.

Cotton Bags

Drawstring Bag

Cotton drawstring bags are lightweight and reusable, featuring a convenient drawstring closure for secure storage.

Mesh Bag

Cotton mesh bags are breathable and flexible, making them ideal for carrying groceries, fruits, and vegetables.

Bottle Bag

Pouches

Cotton pouches are compact and versatile, perfect for storing makeup, coins, or small essentials. These eco-friendly alternatives to plastic pouches are stylish, reusable, and sustainable.

Printing Guide

Important Considerations for Jute Printing

The natural qualities of jute demand specialized printing techniques for optimal results.

With years of expertise, our Creative Design Team is here to guide you through the process. We'll craft tailored visuals, ensuring your printed bags exceed expectations.

Printing Area

Bags produced in our Indian factory can feature edge-to-edge designs, thanks to panel printing before stitching. However, for stock bags, printing is restricted to a defined maximum size, depending on the bag's type and size.

Colors

Natural-colored jute bags pair best with rich, strong colors. These tones stand out more prominently, ensuring your designs are clear and eye-catching on the light jute surface.

Text

The text size must be at least 28pt to ensure clear readability. Standard fonts such as 'Roman' or 'Regular' are highly recommended for better legibility, especially when printed on Jute material. Smaller italic and script typefaces may lose clarity depending on their placement on the fabric's weave pattern and texture.

Resolution

Ensure that all artwork is submitted in the highest resolution possible. Low-resolution artwork is prone to pixelation and can't be used effectively. To achieve optimal quality, we recommend using artwork with a resolution of 300 DPI or higher.

File Formats

The ideal file types for us to work with are as follows:

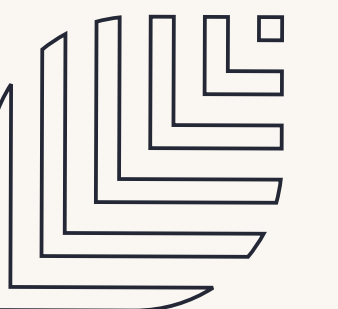

- | | |
|-----------------------------|-----------------------------|
| 1. Adobe Illustrator (.ai) | 3. Adobe Illustrator (.PDF) |
| 2. Adobe Illustrator (.eps) | 4. CorelDraw (.CDR) |

We can also accept the following file formats:

- | | |
|---------------------------------|------------------------|
| 5. Adobe Photoshop (.psd) Files | 7. JPG (.jpg) Files |
| 6. PNG (.png) Files | (High-Resolution Only) |

Please Note:

If you have any questions about the above information or require further customization, please feel free to contact us. Our team is always here to assist you.
