2025

Welcome To DENZ

We are pleased to introduce ourselves as industrial valve manufacturers for full package water project suppliers. At our state-of-the-art 14000 m2 factory plant and casting foundry, we have optimized our product on process to provide high-quality valves for a range of projects, including waste water treatment plants, drinking water supply lines, desalination plants, and pumping stations.

Our facility is equipped with 25+ CNC machines, enabling us to offer optimal solutions with competitive pricing and delivery times without compromising on product quality. We take pride in our ability to deliver strong and durable valves that meet the unique needs of our customers.

DENZ IN EAST EUROPE

ROMANIA

- 2 Special owned pumping station
- All the Check Valves of Bucharest (45 Km to west) WWTP project
- Full package 2 container valve supply for Statie Epurare Ape Reziduale Industriale located in Cetățeni, (Pumping stations)

HUNGARY

- Project of cleaning and reconstruction Buban lake in Kragujevac and Međuvršje lake near Čačak. (DENZ Supplied 2 lots out of 8) by Hungarian firm Naturaaqua.

**EGYPT Sabtiya
Region**

x10+

Sabtiya city in Egypt is usually the first address for those who need a valve quickly. Many shops and tradesmen sell industrial valves in some streets. In short, the heart of the valve beats in Sabtiya in Egypt. DENZ continued to support the tradesmen it has supported for many years, even in difficult economic conditions. To date, more than 10 containers of valves have been sent to the Sabtiya region.

THE INCREASING NUMBER OF SEAWATER DESALINATION PLANTS WORLDWIDE HAS LED TO A GROWING DEMAND FOR SPECIALIZED VALVES. AT THIS STAGE, THERE HAS BEEN A RISING TREND IN THE USE OF PRODUCTS WITH HIGH CORROSION RESISTANCE, SUCH AS HALAR-COATED VALVES OR STAINLESS STEEL COMPONENTS. IN ADDITION TO THESE SPECIALIZED VALVES, FULLY STAINLESS STEEL PENSTOCKS HAVE ALSO BEEN MANUFACTURED IN OUR OWN PRODUCTION FACILITIES AND SUPPLIED FOR THESE PROJECTS. FURTHERMORE, WE COATED A DN2000 B10 DOUBLE ECCENTRIC BUTTERFLY VALVE WITH HALAR, MAKING IT THE ONLY ONE OF ITS KIND IN THE WORLD.

SEBBOU PROJECT (CEGELEC)
2023

focus
is sister company of DENZ

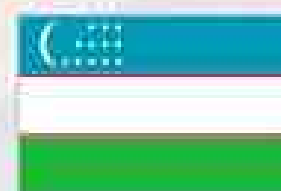

www.denzwater.com

NOTES: SEBBOU PROJECT IS THE FINEST PROJECT DENZ HAD DELIVERED. THE PROJECT LOOKED IMPOSSIBLE AT THE BEGINING. DUE TO LIMITED TIME AND HIGH GRADE BIG SIZE VALVES. DURING THE 11 WEEKS ORDER PERIOD ALL EMPLOYEES IN DENZ FACTORY WORKED 3 SHIFTS WITH EXCEPTIONAL EFFORT. EVEN DURING THE RAMADAN. WE ARE VERY PROUD TO DELIVER SEBBOU.
