Introduction

Sampson Harvey

Founder - CEO

At St. Olumba Farm, we are committed to delivering excellence from the heart of Africa's rich agricultural heritage. Our cocoa export division is dedicated to sourcing, producing, and exporting premium quality cocoa beans to global markets.

About Us

St. Olumba Cocoa Production and Exporting Services — a dedicated division focused on the cultivation, processing, and international supply of premium-quality Nigerian cocoa.

Our entry into cocoa exporting is driven by a vision of empowering local farmers, promoting sustainable agriculture, and offering the world authentic African cocoa excellence.

Since 2020

Vision & Mission

► Vision

Business Portfolio

Since 2020

20 Hectares of Virgin Land Available for Cocoa Cultivation, Seeking Investors in the Rich Cocoa Sector.

ST. OLUMBA COCOA FARM PRODUCED 500 TONS OF COCOA BEANS 2024

Based On Global Standard Best Practices.

Here, we produce high quality Cocoa Beans totally free from mold, insect, damage and other defects, our team of professionals are obliged to focused on reducing moisture content and preventing mold growth, giving our Cocoa Beans a deep, rich color and that significantly impacts a characteristically chocolate natural flavor. Achieving these grade involves taking several careful steps, which begins from cultivation to post-harvest, podding and extraction of cocoa beans, fermentation, sun-drying, quality control and quality examination to storage etc
