furniture

StarWood is a Ukrainian brand established in 2017 as a family business that has transformed into a furniture production with a professional team and a full production cycle. The production is engaged in the manufacture of tables made of HPL plastic, compact board, wood, metal and epoxy resin. TM "StarWood" has been an officially registered trademark in Ukraine since 2020.

Our company is constantly moving forward, embodying the latest trends in design and ergonomics. By regularly attending leading exhibitions and collaborating with top experts, we integrate innovative solutions that meet high standards of quality and modernity.

We participated in the following exhibitions:  
Furniture & Design Isle 2022 Latvia  
Meble Polska 2023 Poland  
MOW 2023 Germany  
InterBuildExpo 2024

The company is equipped with state-of-the-art European equipment and the latest technologies.

The company is currently developing rapidly, implementing advanced solutions to improve the quality and efficiency of production.

Tables are packaged to ensure their integrity during transportation. Packaging can be made according to the relevant standards or customer requirements.

For export, packaging is made according to the shape of the product.
