About Us.

Introduction

PT. Khatulistiwa Global Trading is a legally registered Indonesian export company, proudly presenting Borneo Husk, our flagship line of premium coconut products sourced directly from Borneo.

We specialize in connecting international buyers with high-quality coconut commodities including Semi-Husked Coconuts and Coconut Husk Chips. With our strong supplier network, attention to quality, and a commitment to professional service, Borneo Husk is built to serve growing global demand for sustainable and reliable coconut-based products.

Mission & Vision.

MISSION

- To promote Indonesia's natural coconut resources through Borneo Husk brand.
- To uphold consistent product quality and on-time delivery.
- To empower local farmers and supply chains through fair and responsible trade.
- To grow sustainably with international buyers who value long-term collaboration.

VISION

To become a trusted global supplier of sustainable coconut-based commodities from Borneo, delivering value through quality, integrity, and long-term partnerships.

Legal Information.

PT. Khatulistiwa Global Trading is a legally registered export company based in Pontianak, West Kalimantan – Indonesia. The company operates under the Indonesian OSS (Online Single Submission) system and holds an official Business Identification Number (NIB), enabling us to trade and export commodities globally.

Under this legal entity, we proudly introduce our export brand Borneo Husk, which represents our line of high-quality coconut products aimed at the international market.

Our head office is located in Pontianak, with logistical access to major seaports such as Pontianak Port and Surabaya Port.

Product Highlight.

SEMI-HUSKED COCONUT

Our Semi-Husked Coconuts are carefully selected mature coconuts with the husk partially removed to cover the "eyes" of the shell. This allows for better protection during transit while ensuring product freshness. Sourced from trusted farmers in Borneo, they are ideal for food processing, oil extraction, and wholesale retail markets.

COCONUT HUSK CHIPS

Produced from dried coconut husks, our Coconut Husk Chips are processed and sized for consistent texture. Widely used in horticulture as a soil conditioner and moisture retainer, these chips are 100% organic and free from chemical treatment.

Production & Supply Capability

At Borneo Husk, our production and supply operations are centered in West Kalimantan, Indonesia, where we work closely with a network of trusted farmers, collectors, and processors. This allows us to ensure product consistency, volume availability, and flexibility for various buyer requirements.

We currently supply:

- Semi-Husked Coconut sourced directly from local plantations, sorted and cleaned before packing.
- Coconut Husk Chips produced in controlled drying environments to maintain optimal moisture content and cleanliness.

Our products are packed according to export standards in woven PP sacks, nets, or compressed bales, and loading is handled professionally at Pontianak Port or Surabaya Port, depending on shipping preference and volume.

We are capable of fulfilling small trial orders as well as full container shipments, with a growing monthly capacity to meet consistent long-term demand. Every shipment undergoes basic quality inspection and is accompanied by standard export documentation.

Export Experience / Market Served

Although Borneo Husk is a newly launched export brand, our team is well-prepared to serve buyers across:

- South Asia (India, Bangladesh, Pakistan)
- Middle East (UAE, Oman, Saudi Arabia)
- East Asia (China, South Korea)
- Southeast Asia (Malaysia, Thailand)
- Europe (selective partnerships)

We welcome global inquiries and can support flexible order volumes, sample shipments, and destination-specific product handling.

Why Choose Us

- ☒ Legally registered exporter under Indonesian trade regulations
- ☒ Direct sourcing from trusted coconut producers in Borneo
- ☒ Flexible shipping options and responsive customer service
- ☒ Willing to support trial orders or long-term contracts
- ☒ Fast response, clear documentation, and transparent operations
