

FUMIX

FUMIX

redefines the experience

FUMIX isn't just a device — it's a vibe. It's about keeping the ritual, the feel, the flavor, and doing it in a way that actually fits today. Clean design, smart details, and no unnecessary noise. Just everything you need to enjoy the moment, the way you want it.

We're not here to follow the rules — we're here to rethink them. FUMIX gives you the freedom to enjoy more, feel more, and stay true to your taste. Simple, sharp, and made for those who know what they like.

FUMIX – isn't just made to be used — it's designed to be felt

The shape of the device was reimagined for the modern hand: compact, solid, and with a signature ribbed edge. This textured detail isn't random — it's based on tactile research and adds a subtle sense of control and calm. Think of it as a built-in stress release, crafted to feel natural in motion.

The soft filter is more than a style choice — it's engineered to smooth the experience. Its fine structure helps reduce harsh particles from tobacco-based flavorings, making the vapor softer, rounder, and more pleasant.
