BULK HAIR EXTENSIONS

1

Bulk hair refers to raw human hair that is collected, washed, and aligned with all the cuticles intact and facing the same direction. This ensures that the hair remains tangle-free and of high quality. Bulk hair is not sewn into wefts or processed into extensions like clip-ins or tape-ins. Instead, it comes loose and is typically tied in bundles.

Uses of Bulk Hair:

1. Wigs and Extensions: It is often used to create custom wigs or other types of hair extensions.
2. Braiding: Commonly used for braiding hairstyles.
3. Ventilating: Ideal for knotting hair into lace wigs, closures, or toupees.
4. High-end applications: Because of its natural alignment and intact cuticles, it is preferred in premium hair solutions.

This type of hair is valued for its natural appearance, durability, and the fact that it can be dyed, styled, and treated like natural hair.

+91-7001-906826

DOUBLE MACHINE WEFT HAIR

2

Our Double Machine Weft Hair Extensions are crafted using a dual stitching process that ensures superior strength and durability. This process involves attaching the hair strands securely onto a reinforced weft, preventing shedding and enhancing longevity. Single machine weft extensions also available upto specific requirements.

Uses of Double Machine Weft Hair Extensions:

1. Instant Length and Volume: Perfect for individuals looking to add natural-looking length and volume to their hair instantly.
2. Customizable Styles: Suitable for various hairstyles, including ponytails, braids, and buns.
3. Hair Enhancements for Occasions: Ideal for weddings, parties, and special events, providing a luxurious look.
4. Salon or Personal Use: Can be used by professionals or individuals for styling and hair makeovers.

+91-7001-906826

support@arrafiimpex.co.in

PRE-BONDED I-TIP HAIR EXTENSIONS

3

- A keratin based material is melted and applied to the end of each strand.
- The keratin is molded into small cylindrical shape, resembling the tip of a stick or an “i”. This tip serves as the attachment point for the hair extension.
- Specialized tools are used by our hair experts to ensure the keratin tip is durable and secure.
- Permanent attachment for hair volume and length.
- Made from 100% Natural Human Hair.
- Can be attached by heat or by micro ring.
- Can be used by individuals and professionals.
- Can be curled and straightened.
- These can be colored, dyed and bleached also.
- Hairs are silky soft, tangle free.
- Value for money.

+91-7001-906826

support@arrafiimpex.co.in

TAPE-IN HAIR EXTENSIONS

4

Tape-in hair extensions are a popular semi-permanent hair extension method that uses thin adhesive wefts to attach the extensions to natural hair. These lightweight and seamless extensions blend naturally, making them almost undetectable.

Uses of Tape-In Hair Extensions:

1. Add Volume
2. Increase Length
3. Enhance
Hairstyles
4. Non-Damaging

Application on Women's Hair:

- Hair is washed and dried to ensure the adhesive bonds securely.
 - Extensions are matched to the natural hair color for a seamless look.
1. Placement:
 - Small sections of natural hair are sandwiched between two adhesive tape wefts.
 - The extensions are applied close to the scalp but not touching it, allowing flexibility and comfort.
 2. Styling:
 - Once installed, the extensions can be styled like natural hair using heat tools, ensuring versatility.

HAIR TOPPERS

6

Toppers are made for women with thinner density of hair. Toppers are usually used by Caucasian and Asian women to add volume to their own hair or to cover head area where natural growth of hair is either less or density is thin. Toppers are a remarkable product for women facing Alopecia.

Application of Hair Toppers:

- Choose a topper that matches the natural hair color, texture, and length.
- Clip-In Method: Most toppers come with secure clips that are attached to natural hair at the crown.
- Regular cleaning and care are essential to maintain the quality and longevity of the topper.

Advantages for Women with Alopecia:

- Immediate Solution: Provides instant coverage for areas affected by alopecia.
- Lightweight and Comfortable: Designed for everyday wear without discomfort.
- Customizable: Available in various sizes and styles to suit individual needs.
- Non-Damaging

CLOSURES (4X4 AND 5X5)

7

Closures are hairpieces designed to cover the crown area of the scalp, measuring various sizes. It is typically crafted with a lace or silk base and 100% Human hair strands hand-tied to create a natural scalp appearance. Closures are a popular choice for achieving a seamless, natural finish in hair installations and are often used in conjunction with weaves or wigs.

Application of Closures

1. Preparation:
 - Natural hair is braided or styled into a flat base to allow smooth application.
2. Attachment:
 - Sew-In: The closure is sewn onto braids or a wig cap using needle and thread.
 - Glue or Adhesive: Applied with lace glue or adhesive for a more secure fit.
 - Wig Integration: Used in custom wig-making to create a realistic scalp at the crown.
3. Positioning:
 - The closure is placed directly at the crown, aligning with the hairline for a natural look.
 - Adjustments are made to ensure the lace or silk base mimics the scalp.
4. Styling:
 - Closures can be styled like natural hair, including straightening, curling, or parting.
 - Offers flexibility for creating middle, side, or free-part styles.

FRONTALS (13X4 AND 13X6)

8

Frontals are a versatile hairpiece that measures 13 inches in width (ear-to-ear) and 6 inches or 4 inches in depth, offering an extensive lace base for styling flexibility. It mimics the natural scalp and hairline, allowing users to achieve a flawless, realistic look. Frontals are typically made with lace or HD lace and can feature human or synthetic hair strands. They are widely used in wig-making or as part of sew-in extensions for complete hair coverage.

Application of Frontals

1. Preparation:

- Natural hair is braided or styled into a flat base to allow smooth application.

2. Attachment:

- Sew-In: The closure is sewn onto braids or a wig cap using needle and thread.
- Glue or Adhesive: Applied with lace glue or adhesive for a more secure fit.
- Wig Integration: Used in custom wig-making to create a realistic scalp at the crown.

3. Positioning:

- The closure is placed directly at the crown, aligning with the hairline for a natural look.
- Adjustments are made to ensure the lace or silk base mimics the scalp.

4. Styling:

- Closures can be styled like natural hair, including straightening, curling, or parting.
- Offers flexibility for creating middle, side, or free-part styles.

FINE MONOFILAMENT HAIR PATCH

11

- **Material:** Made from a breathable, lightweight fine monofilament fabric.
- **Appearance:**
 - Mimics the scalp, offering a realistic look.
 - Individual hairs are hand-tied to the monofilament, creating a natural hair movement.
- **Durability:** Highly durable and suitable for long-term use.
8-10 months guaranteed life expectancy subject to proper care and maintenance
- **Breathability:** Excellent airflow, making it comfortable for extended wear.
- **Attachment Options:** Compatible with clips, tapes, or glue.
- **Best For:**
 - Individuals with active lifestyles.
 - Those who prioritize durability and natural appearance.

- **Hair Quality and Length:**

- **High quality and tested Remy Hair.**
- **Hair Length:** 8" , 10" , 12" and 14"
longer hair length can be availed upon order.

FINE MONOFILAMENT HAIR PATCH

+91-7001-906826

support@arrafiimpex.co.in

SUPERIOR MONOFILAMENT HAIR PATCH

12

- **Material:** Features a thin polyurethane (PU) "skin" base with monofilament.
- **Appearance:**
 - Ultra-thin base closely resembles human skin, providing an undetectable scalp effect.
 - Hairs are injected, V-looped, or knotted into the skin layer, enhancing the realistic look.
- **Durability:**
 - Less durable compared to fine monofilament due to the delicate skin material.
 - Typically lasts **6–8 months** with proper care.
- **Breathability:** Limited airflow due to the non-porous skin base.
- **Attachment Options:** Best secured with adhesive or tape for a snug fit.
- **Best For:**
 - Short-term or occasional use.
 - Individuals seeking the most natural scalp appearance for close-up visibility.

- **Hair Quality and Length:**

- **High quality and tested Remy Hair.**
- **Hair Length:** 8" , 10" , 12" and 14"
longer hair length can be availed upon order.

SUPERIOR MONOFILAMENT HAIR PATCH

MIRAGE FILAMENT HAIR PATCH

13

- **Material:** Advanced combination of ultra-thin monofilament with enhanced lace or PU borders.
- **Appearance:**
 - Offers a blend of fine monofilament's natural look with additional refinements for invisibility.
 - Ideal for creating high-definition scalp visibility, especially in frontal areas.
- **Durability:**
 - Durable yet more delicate than fine monofilament alone.
 - Designed for medium to long-term use with proper care.
 - Typically lasts **6–8 months** with proper care.
- **Breathability:** Limited airflow due to the non-porous skin base.
- **Attachment Options:** Flexible attachment options including glue, tape, or combination methods.
- **Best For:**
 - Individuals who want a balance between durability and natural appearance.
 - Those prioritizing a flawless hairline and undetectable edges.

Hair Quality and Length:

- **High quality and tested Remy Hair.**
- **Hair Length:** 8" , 10" , 12" and 14"
longer hair length can be availed upon order.

Different types of LACE HAIR PATCH

At AR-RAFI IMPEX, we offer a variety of LACE Hair Patches as followed:

- 1.Mirage Lace Hair Patch
- 2.French Lace Hair Patch
- 3.Full Lace Hair Patch

Key Comparison Table

Feature	Mirage Front Lace	French Lace	Full Lace
Material	Lace front + durable base	Full French lace	Entirely fine lace
Appearance	Natural front hairline	Natural scalp-like look	Seamless, highly realistic
Durability	High	Moderate	Low
Breathability	Moderate	Excellent	Exceptional
Styling Options	Limited to frontal styles	Versatile	Complete freedom
Ideal For	Daily wear with realism	Comfort and natural look	Maximum realism, short-term

+91-7001-906826

support@arrafiimpex.co.in

MIRAGE FRONT LACE HAIR PATCH

14

- **Material:**

Combines a lace material at the front (for a natural hairline) with a stronger base material like monofilament or polyurethane for the rest of the patch.

- **Appearance:**

- Offers a realistic hairline at the front, making it ideal for hairstyles that expose the forehead.
- Ideal for creating high-definition scalp visibility, especially in frontal areas.

- **Durability:**

- More durable than a full lace patch due to the stronger base material.
- Typically lasts **8–10 months** with proper care.

- **Breathability:**

Moderate breathability; lace front allows airflow, but the non-lace base can restrict ventilation.

- **Styling Options:**

Best for styles that emphasize the hairline but do not require an exposed scalp at the back.

- **Ideal Use:**

Suitable for those prioritizing a natural hairline while needing a durable and affordable patch for daily wear.

Hair Quality and Length:

- **High quality and tested Remy Hair.**
- **Hair Length:** 8" , 10" , 12" and 14"
longer hair length can be availed upon order.

FRENCH LACE HAIR PATCH

15

- **Material:** Advanced combination of ultra-thin monofilament with enhanced lace or PU borders.
- **Appearance:**
 - Offers a blend of fine monofilament's natural look with additional refinements for invisibility.
 - Ideal for creating high-definition scalp visibility, especially in frontal areas.
- **Durability:**
 - Durable yet more delicate than fine monofilament alone.
 - Designed for medium to long-term use with proper care.
 - Typically lasts **6–8 months** with proper care.
- **Breathability:** Limited airflow due to the non-porous skin base.
- **Attachment Options:** Flexible attachment options including glue, tape, or combination methods.
- **Best For:**
 - Individuals who want a balance between durability and natural appearance.
 - Those prioritizing a flawless hairline and undetectable edges.

ABOUT US

We are the Supplier/Exporter of 100% Human Hair. We are verified Supplier of leading B2B portals like Alibaba and Indiamart. Majority of our Hair sourcing is done from Southern India and few from major states of India. Our dedicated sourcing team is committed to source Unprocessed Raw hair through a series of Quality tests by our Hair Experts and same is collected and processed a variety of Hair Styling Products. Our range of Hair styling Products have already been described above in the catalog. It takes a lot of dedicated effort from our Manufacturing unit to process Unprocessed Raw Hair and able to meet our clients' requirements dispatched at the earliest.

QUALITY ASSURANCE

Sourcing: We source south Indian Temple Hair ethically from trusted suppliers to ensure sustainability.

Processing: Each strand undergoes a careful selection process by our Hair Experts to maintain natural integrity.

Quality Control: Our products are checked at every stage to ensure they meet our standards.

MISSION

To be a trusted global supplier of premium-quality products across various sectors by ensuring exceptional service, competitive pricing, and sustainable business practices.

VISION

Our aim is to create unique moments of joy, transforming the lives of individuals, including those with alopecia, by restoring their confidence and enhancing their appearance.

Our vision is steadfast in prioritizing the satisfaction and trust of our valued clients, ensuring their happiness remains at the heart of everything we do.
