Company Profile

Preface:

Nayoumo Group Limited, UK

This company was established in 2013 and specializes in the professional production, processing, research and development, and manufacturing of products such as water purifiers, rice cookers, electric pressure cookers, and air fryers. It has an annual production capacity of 2 million household appliances of various types. With a complete and scientific quality management system, as well as its own injection molding workshop and mold workshop, the company has strong production capabilities. Our company's integrity, strength, and product quality have been recognized by the industry. Currently, we have three factories with a total area of more than 25,000 square meters, a storage area of 5,000 square meters, and a daily shipment of 7,000 units per single product, with a monthly output of over 200,000 units. The company's products have quality certificates such as CCC, CE, CB, and H, and we develop more than 10 new products each year. The company has the right to import and export and has several brands under its name,

including OBtmui (Europe), Aejele (Angel), Panasonic, Nayoumo, and Qianmu.

Product Projects

Main products of the company: water purifiers, rice cookers, pressure cookers, air fryers

high-speed blenders, performance, features, and innovation.

Gifts, live streaming, private domains, group buying, exports.
The products are as follows:

Product name: Wall-mounted heater

Product color: Pearl white

Rated power: 30-1800W

Rated voltage: 220V-50Hz

Package size: 590x160x247 (mm)

Gross weight: 2.45Kg

Net weight: 2Kg

Functional selling points:

1. High power of 1800W, quickly warming from cold to warm
2. Wall-mounted design, both beautiful and space-saving
3. Enlarged and thickened ceramic heating element, waterproof and moisture-proof, ensuring safety
4. Multi-functional, meeting various needs
5. Multiple protections, including overheating protection and power-off protection.

Product name: Mobile vertical air conditioning fan

Product model: LNS-A-89

Rated voltage: 220V-50Hz

Cooling power: 65W

Heating power: 2000W

Water tank capacity: 3L

Gear selection: 3 gears (high/medium/low)

Swing setting: swingable

Package size: 770*297*210mm

Features: Cooling, heating, humidifying, automatic swinging.

Functional selling points:

1. More friendly than air conditioning for cooling, and cooler than fan for heat relief
2. Ion purification and water washing technology, restoring fresh and natural air
3. Multi-functional, not only for blowing, but also for humidifying and cooling
4. Detachable drying rack, for warming and drying clothes
5. Intelligent remote control, easy to start with one button
6. Large air outlet, swingable, wide-angle delivery of air.

Product name: Mobile vertical air conditioning fan
Product model: HJ805
Rated voltage: 220V-50Hz
Cooling power: 30W
Heating power: 1800W
Water tank capacity: 3L
Gear selection: 3 gears (high/medium/low)
Swing setting: swingable
Product size: 690*240*200mm
Package size: 723*243*287mm
Net weight: 4.25KG
Gross weight: 4.75KG
Features: Cooling, heating, humidifying, automatic swinging.

Functional selling points:

1. More friendly than air conditioning for cooling, and cooler than fan for heat relief
2. Ion purification and water washing technology, restoring fresh and natural air
3. Multi-functional, not only for blowing, but also for humidifying and cooling
4. Detachable drying rack, for warming and drying clothes
5. Intelligent remote control, easy to start with one button
6. Large air outlet, swingable, wide-angle delivery of air.

Product name: Intelligent environmental
disinfection device

Rated power: 40W

Working voltage: 220V~

Rated frequency: 50Hz

Water tank capacity: 15L

Maximum atomization amount: 300mL/h

Safety protection: Power-off protection when
water is lacking

Product size: 170*160*870mm

Noise: below 38dB

Package size: 265*245*925mm

Functional selling points:

1. Special design with high appearance, PP material for the shell, 40W power
2. Intelligent constant temperature, controlled by the internal PCB board, automatically adjusting the temperature, with a digital temperature monitoring on the body, silent and lightweight
3. Voice playback and power-off protection when lacking water. Large atomization amount, air disinfection, simple operation
4. Using the principle of producing 1-5 micron ultrafine particles by ultrasound vibration, and adding negative ions, the water mist is blown into the air from the pipeline through the spiral fan, achieving 360-degree disinfection of viruses and bacteria in the air without dead corners.

Product name: Meat grinder
Product model: AL02SS
Rated power: 300W
Rated voltage: 220V~50Hz
Capacity: 2.5L
Net weight: 1KG
Gross weight: 1.1KG
Package size: 300*190*140mm

Functional selling points:

The main purpose of the electric meat grinder is to grind the cut meat into meat filling or meat paste, or to separate bone and meat to make the meat taste better. The multi-functional electric meat grinder can not only grind meat, but also knead dough, grind vegetables, and extract juice.

Product name: Jiwei Flip-Top Meal Box

Product model: JT-1004

Colors: green, purple, yellow

Capacity: 1250ML

Materials: pp + silicone + ps

Product dimensions:
19.5*14.5*8cm

The dimensions of the outer box
are 60*40.5*52.5 cm.

Product weight: 300g

Weight: 15.5 kg

Net weight: 14.4kg

Functional selling points

1. Made from food-grade PP and PS materials, it can withstand high-temperature water disinfection and has no unpleasant smell.
2. The set includes all necessary utensils, is space-saving, and is dust- and germ-proof.

Product name: Three-layer lunch box

Materials: 304 stainless steel + PP + PS

Product model: JT-1001-3

Packaging method: cardboard box

Number of items per carton: 18

Single Specification: 22*12*16cm

The dimensions of the outer box are 45.5*38.5*49.5 cm.

The box weighs 12.5 kg.

Functional selling points

1. Made from food-grade PP and PS materials, it can withstand high-temperature water disinfection and has no unpleasant smell.
2. The set includes all necessary utensils, is space-saving, and is dust- and germ-proof.

Product Name: Rectangular Three-Compartment Lunch Box

Capacity: 1.4L

Item number: JT-109

Materials: pp, ps, and silicone

Packaging method: heat-shrink film

Number of items per carton: 48

Product dimensions: 20*13*9.5

The dimensions of the outer box are 51.5*42.5*55.5.

Product weight: 260g

Functional selling points

1. Made from food-grade PP and PS materials, it can withstand high-temperature water disinfection and has no unpleasant smell.
2. The set includes all necessary utensils, is space-saving, and is dust- and germ-proof.

Product name: Antibacterial Large Capacity Divided Lunch Box

Item number: JT-1008

Capacity: 1700ML

Materials: antibacterial PP + PS

Packaging method: heat-shrink film

Product dimensions: 22*13*15

The dimensions of the outer box are 54*46*45.

Product weight: 250g

功能卖点

- 1.食品PP级材质，可进微波炉加热
- 2.双层分隔设计，荤素搭配，保持美食原有滋味

Product name: National Trend Mug
(with box and spoon included)

Product model: JT-2401

Material: PP + silicone

Packaging method: color box

Product dimensions: 15*9cm

The dimensions of the outer box are
60*42*48cm.

Functional selling points

The cup is made of food-grade PP material, with a matte finish on the outside and a lightweight, ergonomic handle.

Product name: Xiao Man Yao Two-in-One Soup Pot

Product model: JT-2400

Materials: PS + silicone + 304 stainless steel

Packaging method: color box

Product dimensions: 15*9.6cm

The dimensions of the outer box are 40.5*40.5*48.

Functional selling points

Thick-walled sealing ring, breathable valve inserted into the straw, convenient to use, flat and slip-proof bottom.

Product name: 300ml carry-along cup with handle

Product model: JT-101

Materials: wheat straw, silicone, and TPR

Colors: blue, green, pink

Packaging method: hot-pressing plastic

Capacity: 300ml

Product dimensions: 7.98 cm * 11.37 cm

The dimensions of the outer box are 63*32*35.5 cm.

Functional selling points

It is compact and easy to carry.

Product name: Health-Boosting Kettle

Product model: YSH884

Color: Retro Green

Capacity: 1.8L

Power: 800W

External box dimensions:
590x530x450mm

Functional selling points

1. Boiling water, flower tea, cooking eggs, making noodles, making soup, making porridge, hot pot, yogurt, medicinal food, sweet soup, warm milk, brewing wine, fruit tea, maintaining temperature, low-heat cooking, coffee, baby water, milk powder water, black tea, and red tea
2. Separate-body glass touch model health-preserving kettle, fully automatic
3. 100% Gaopeng glass, food-grade 304 heating plate
4. You can set a timer in advance or adjust the power output.

Product name: Heating Culinary
Blender
Model: GM-115
Capacity: 1.75L
Model: GM-115
Rated voltage: 220v~50Hz
Heating power: 800W
Mixing power: 500W
Product packaging dimensions:
420*250*325

Functional selling points

Functions include soy milk, complementary food, soft porridge, corn juice, simmering soup, chicken soup, flower tea, fish soup, fruit juice, smoothie, milkshake, watermelon juice, reheating, keeping warm, ultra-fine grinding, and cleaning.

Description: Dual safety protection, magnetic sensing cup cover; high borosilicate heat-resistant glass cup; four-dimensional, three-dimensional eight-blade 304 stainless steel blade.

Model: TQ-801
Product name: Heating Culinary
Blender
Rated voltage: 220v~50Hz
Mixing Capacity: 1.75L
Heating power: 800W
Mixing power: 500W
The product weighs 5.2 kg.
The product weighs 5.7 kg in gross.
Product dimensions (in millimeters)
The product packaging consists of
cartons and foam.
Dimensions: 440*275*315
The packing list includes the main
unit, glass cups, cup covers, user
manuals, recipes, soy milk
scrubbers, and measuring cups.
Number of items per carton: 1 unit
Product certification CCC

Functional selling points

Functions: soy milk, thick soup, corn juice, steaming, smoothies, fruits and vegetables, rice porridge, scheduling, grinding, intermittent operation/cleaning, baby food, soft porridge.

Model: DMJ6
Product name: Heating Culinary
Silent Blender
Motor: 6530
Motor: brushless motor
Mixing power: 800W
Heating power: 900W
Motor speed: 26,000
Capacity: 1.5L
Blades: 14 pages
Blade material: 304 stainless steel
The inner wall material is high-
borosilicate glass.
Product dimensions:
231*196*349MM
The net weight of the product is
3.54KG.
The packing list includes the main
unit, glass cups, cup covers, user
manuals, recipes, soy milk
scrubbers, and measuring cups.
Number of items per carton: 1 unit
Product certification CCC

functional selling points

Functions: soy milk, thick soup, corn juice, steaming, smoothies, fruits and vegetables, rice porridge, scheduling, grinding, intermittent/cleaning, baby food, soft porridge, brushless motor, removable blade plate, multi-layer cup body, low noise of 39 decibels, high-temperature drying and cleaning

Factory model: 20
Rated power (W): 1700W
Product voltage: 110V/220V
Product configuration:
touchscreen
Product dimensions:
400*280*300MM
Dimensions of the accessory
(steaming compartment):
280*170MM
Net weight: 5.45KG
Gross weight: 6.31KG
Dimensions of the colored box:
418*317*338mm
External box dimensions:
650*430*355mm (for 2 units)
Main Uses:
Cooking/Heating/Thermal
Retention
Product certifications: CE/CB/3C

Functional selling points

It uses an all-in-one shell and double fried railing style, which is stylish, novel and generous in appearance.

Use fast hot air circulation to complete the cooking of various ingredients, so that the external surface area of the food evenly heated.

It achieves a similar effect to frying.

3. With a touch control panel, there are six preset menus that can be adjusted according to the ingredients.

4. Use fast circulation of hot air to complete frying, which produces less smoke odor than traditional frying 8 has temperature control, ultra-temperature protection, and safe protection.

Factory model: 19
Rated power (W): 1700W
Product voltage: 110V/220V
Product configuration:

It achieves a similar effect to frying.

3. With a touch control panel, there are six preset menus that can be adjusted according to the ingredients.

4. Use fast circulation of hot air to complete frying, which produces less smoke odor than traditional frying
8 has temperature control, ultra-temperature protection, and safe protection.

Product name: air fryer
Model number JD-389
The rated power is 1400W.
The rated voltage is 220V.
The rated frequency is 50Hz.
Capacity: 4.5L
Inner components: tinplate + food-grade coating
Shell: plastic PP
Handles: plastic ABS + spray coating
Steaming grid: tinplate + food-grade coating
Color: Black
Product dimensions: 220*330MM
Net weight: 3.8 KG
Package dimensions: 303*303*344
Gross weight: 4KG
Product certifications: CE/CB/3C

Functional selling points

- 1.5L capacity design, the use of integrated shell shape, the appearance of fashion, novel, generous.
- Use fast hot air circulation to complete the cooking of various ingredients, so that the external surface area of the food evenly heated.
- It achieves a similar effect to frying.
3. With a touch control panel, there are six preset menus that can be adjusted according to the ingredients.
4. Use fast circulation of hot air to complete frying, producing less smoke odor than traditional frying5 with temperature control, ultra-temperature protection, and safety protection.

Product name: air fryer
Model: JD689
Capacity: 8L
Colors: white, black, blue
Power: 1400W
Shell material: plastic PP
Handles: plastic ABS + spray coating
Steaming grid: tinplate + food-grade coating
Inner components: tinplate + food-grade coating
Rated voltage: 220-240, 50Hz
Product dimensions: 300*260*250MM
Net weight: 3.9KG
Gross weight: 3.24KG
Product certifications: CE/CB/3C

Functional selling points

- 1.8L large capacity, pre-set menus, touchscreen display, intelligent scheduling, and power-off protection
2. Integrated thermal insulation handle, detachable rear cooling system, and non-stick grilling rack.
3. Utilizing rapid circulation hot air to conduct frying results in less smoke and odor compared to traditional frying, and it is equipped with temperature control and over-temperature protection devices for enhanced safety.

Product name: air fryer
Model: JD-989
Capacity: 15L
Colors: white, black, green
The power is 1,400 watts.
Shell material: plastic PP +
galvanized steel sheet
Rated voltage: 220-240 V, 50 Hz
Dimensions of the product (mm):
310*290*375MM
Net weight (KGS): 4.52KG
Gross weight (KGS.) 4.75KG
Accessories: handle/grill basket/grill
grid/grill plate
Product certifications: CE/CB/3C

A best-seller

Functional selling points

1. 15L capacity design, using an integrated shell shape, the appearance of fashion, novel, generous.

Use fast hot air circulation to complete the cooking of various ingredients, so that the external surface area of the food evenly heated.

It achieves a similar effect to frying.

3. Using a touch control panel, six preset menus, you can adjust the temperature and cooking time according to the ingredients.

4. Use fast circulation of hot air to complete frying, producing less smoke odor than traditional frying. 5. With temperature control, ultra-temperature protection, and safety protection.

Product name: air fryer
Model: JD-688
Capacity: 4.5L
Colors: white, black, Power: 1400W
Shell material: plastic PP +
galvanized steel plate; Voltage:
rated voltage 220-240 V, 50Hz
Dimensions of the product (mm):
310*290*375MM
Net weight (KGS): 3KG
Gross weight (KGS.) 3.5KG
Accessories: handle/grill basket/grill
grid/grill plate
Product certifications: CE/CB/3C

New style

Functional selling points

1.4.5 Capacity is designed with an all-in-one shell shape, which makes for a stylish, innovative and generous look.

Use fast hot air circulation to complete the cooking of various ingredients, so that the external surface area of the food evenly heated.

It achieves a similar effect to frying.

3. Using a touch control panel, six preset menus, you can adjust the temperature and cooking time according to the ingredients.

4. Use fast circulation of hot air to complete frying, producing less smoke odor than traditional frying5 with temperature control, ultra-temperature protection, and safety protection.

Product name: air fryer
Model: JD888
Rated voltage: 220V
Rated frequency: 50Hz
Capacity: 3.8 L
Control method: touch-based
Rated power (W): 1000W
Product dimensions:
214*287*273mm
Net weight: 2.89KG
Gross weight: 3KG
Dimensions of the colored box:
290*240*302mm
Inner pot material: high boron
glass
Shell material: PP
Handles are made of ABS
Outsourced dimensions:
735X300X618MM
6 units per set
Product certifications: CE/CB/

Functional selling points

1. This device serves as both an oven and an air fryer, offering a two-in-one solution for air frying and baking without the use of oil.
2. Retro appearance, vertical large capacity, electronic intelligent control, oil-free and low-fat, professional baking.
3. Use high-temperature hot air instead of hot oil.
4. Ergonomic-designed handles and thick, explosion-proof glass doors.

Name: Light Wave Oven
Model: FG-615
Capacity: 12 L
Material: high boron glass
Color: Emerald (customizable)
Rated voltage: 220V 50Hz
Rated power: 1300W
Temperature range: 60°-250°
The net weight of the product is 3.4KG.
Gross weight: 5KG
Product dimensions: 380*335*330MM
The dimensions of the outer box are 390*390*255mm.

Functional selling points

Touch / button control panel optional, power 1300W, removable plug, scalding safety base, simple operation interface, various options. High boron glass pan body, thickened body resistance to high temperature Full view of glass pan, at any time observing the physical condition without coating, more healthy.

The front material is upgraded to use polyelectric ring stainless steel, lifting the front hand can automatically disconnect the power, and holding down the hand can tighten the light touch switch to continue working. Systemic circulation heating tube, the top of the heat dissipation technology, so that the machine longer life, so that food is not easy to burn.

The positioning of the lightwave oven: multi-use, Chinese and Western cuisines can be made, and it is smoke-free, fire-free, oil-free and radiation-free. Healthy oil-free cooking to taste the essence; With no fire or oil, cook easily

Product model: 21
Product power: 900W/1400W
The voltage of the product is 110V/220V.
Product configuration: touchscreen
Product materials: plastic main body/copper-clad aluminum motor/tinplate
Single unit weight: 4.48kg
Single unit dimensions (color box): 364*326*333mm
Number of packing stations: 4 per box
Gross weight of the whole box: 17kg
The dimensions of the outer box are 675*380*685mm.
Main Uses: Cooking/Heating/Thermal Retention

Functional selling points

Designed with a 15 capacity, it uses an all-in-one shell shape and has a stylish, novel and generous exterior.

Use fast hot air circulation to complete the cooking of various ingredients, so that the external surface area of the food evenly heated.

It achieves a similar effect to frying.

3. Using a touch control panel, six preset menus, you can adjust the temperature and cooking time according to the ingredients.

4. Uses fast circulation of hot air to complete frying, producing less smoke odor than traditional frying
5 has temperature control, ultra-temperature protection, and safety protection

Product model: 21-1
Product power: 900W/1400W
The voltage of the product is 110V/220V.
Product configuration: touchscreen
Product materials: plastic main body/copper-clad aluminum motor/tinplate
Single unit weight: 4.64kg
Single unit dimensions (color box): 364*326*333mm
Number of packing stations: 4 per box
Gross weight of the whole box: 19.5 kg
The dimensions of the outer box are 675*380*685mm.
Main Uses: Cooking/Heating/Thermal Retention

Functional selling points

- With a 15 capacity design, it uses an all-in-one enclosure shape, and the exterior is stylish, novel, generous and visible.
- Use fast hot air circulation to complete the cooking of various ingredients, so that the external surface area of the food evenly heated.
- It achieves a similar effect to frying.
3. Using a touch control panel, six preset menus, you can adjust the temperature and cooking time according to the ingredients.
 4. Uses fast circulation of hot air to complete frying, producing less smoke odor than traditional frying5 has temperature control, ultra-temperature protection, and safety protection

Product model: QF-503
Rated voltage: 220V~
Rated power: 1350W
Product capacity: 4L
Product materials: PP, high borosilicate heat-resistant glass
Colors: black, light green, dark green, white
Product dimensions: mm.
Packaging dimensions: mm
Gross weight per unit: kg
Number of items per carton: 1
Included in the packing list are the main unit, oil filter mesh, power cord, baking basket, and user manual.

New product

Functional selling points

14 Capacity designs, with an all-in-one shell shape, and a stylish, innovative, generous and visible look.

Use fast hot air circulation to complete the cooking of various ingredients, so that the external surface area of the food evenly heated.

It achieves a similar effect to frying.

3. Using a touch control panel, six preset menus, you can adjust the temperature and cooking time according to the ingredients.

4. Uses fast circulation of hot air to complete frying, producing less smoke odor than traditional frying5 has temperature control, ultra-temperature protection, and safety protection

Product name: Multifunction
Electric Steamer

Model: SMG-03A

Dimension: two layers

Capacity of the pot: 3L

Power: 1200W

Steam plate: 430 stainless steel

The pot body: 304 stainless steel

Cover/Steamer: PC

Product dimensions:
296*281*309mm

The dimensions of the outer box
are 30*29*26cm.

Functional selling points

1. Heat-resistant handle design, made of food-grade materials, safe from overheating.
2. Six functional menus, transparent body for a clear view of the food situation
3. Stay well-informed about the cooking process to ensure quick steaming and preservation of the freshness of ingredients.
4. It can perform multiple functions, including frying, grilling, steaming, boiling, braising, and more.

Product name: electric rice cooker

Product model: AMN-F310J

Color of the product: dark green

Rated capacity: 3L

Rated voltage: 220V

Rated frequency: 50Hz

Rated power: 1000W

Operating pressure: 0-70kpa

Functional selling points

1. Main functions: hot pot, steamer, sauna pot, rice cooker, pressure cooker, frying pan, multi-function pot with all functions in one; 24-hour reservation design.
2. The lid is designed with a full-coverant anti-scalding feature, allowing it to be conveniently stored on the side; it is also hygienic and tidy; the lid features a curved design, making it easier to move with one hand;
3. Safe magnetic control sensing settings with pressure operation status, won't operate if the cover isn't properly closed, and safety alerts for added peace of mind;
4. The patented magnetic levitation program recognition technology can automatically identify the working states of pressure cooker lids and glass pot lids, so you can easily switch cooking methods by simply changing the lids.

Product name: electric rice cooker
Product model: MZ-401
Rated voltage: 220V/50Hz
Heating power: 800W
Capacity of the inner container: 4L
Electrical shock protection type: Class II
Product dimensions: 335 X 220 X 270mm
Dimensions of the colored box: 385*325*275mm
Net weight of the product: 4.1Kg
Gross weight of the product: 5.2 kg
Color: white
Inner tank configuration: ceramic oil

Functional selling points

1. Nine distinct functional menus to choose from, whatever you desire.
2. Full-screen touch IMD
3. It has a clean and fashionable appearance.
4. 304 food-grade stainless steel glucose-lowering inner pot, 5.24-hour scheduling, simple and convenient

Product name: electric rice cooker
Product model: XP-F5
Function: Touch-operated computer operation with IMD panel
Capacity: 5L
Rated voltage: AC220V-50HZ
Rated power: 900W
Weight: 3.2KG/4.5KG
Inner tank: 430g double-spray aluminum tank
Power cable: 0.75mm*3
Foam: small four-sided foam pieces
Colorful box: 3 layers of paper, with paper handles.
Large box: F = A with 5 layers of reinforced paper (can fit 4 units).

Functional selling points

1. Intelligent micro-electric touch control, non-stick aluminum pot, 5L capacity, 24-hour scheduling, multifunctional one-click cooking, capable of cooking, stewing, boiling, and steaming.
2. You can choose the Health-Preserving Dual-Bowl Rice Cooker (non-stick aluminum pot + 304 stainless steel inner pot), featuring a dense sugar removal design, rice soup separation, and rice that is fragrant yet not overly sweet; the dual-pot rice soup separation technology is a unique innovation, allowing for efficient sugar removal in three steps to produce low-sugar rice in line with ancient methods.

Product name: Electric rice cooker
(for export)
Models: MZ-205/206
The inner tank is equipped with
ceramic oil.
Capacity: 2L
Rated voltage: 220V/50Hz
Heating power: 400W
Electrical shock protection type:
Class II
Product dimensions: 270 × 250 ×
210 mm
The dimensions of the color box
are 275*275*290mm.
Net weight of the product: 2.5 kg
Gross weight of the product: 3.25
kg
Color: white

New style

Functional selling points

1. The first of its kind, featuring an innovative twist-to-open mechanism that guarantees a premium feel.
2. Delicious rice dishes/porridges/broths/infant rice dishes/steamed rice dishes/low-sugar rice dishes
3. LCD display, all-touchscreen IMD
4. Removable exhaust valve for easier cleaning.
5. The chassis heats up more evenly.

Product name: Mini Low-Sugar Pot
Model: F201D
The inner tank is equipped with ceramic oil.
Capacity: 2L
Colors: Matcha Green/Minty Yellow
Rated voltage: 220V/50Hz
Heating power: 400W
Inner tank capacity: 2L
Electrical shock protection type: Class II
Standard configuration: dual-spray
Kaolin inner pot + 304 stainless steel perforated pot (optional)
Single unit box dimensions: 320mm * 320mm * 290mm
The gross weight of each unit is 2.9 kg.

New style

Functional selling points

1. It has a unique style and novel design, with a silicone handle that is cute and adorable.
2. The food-grade clinoptilolite inner pot has excellent non-stick properties, is durable and wear-resistant, ensures delicious-tasting rice, and resists deformation.
3. It has a complete set of functions and multiple menu options, allowing you to cook rice, traditional rice dishes, hearty soups, clay pot rice, braised bird's nest, baby rice porridge, stews, braises, and set cooking times in advance.
4. With a capacity suitable for 1-5 people, it is compact and ideal for those who value a refined lifestyle, ensuring that high-quality ingredients are not wasted.
5. Health-conscious low-sugar rice, separate rice soup/rice, separate residue and juice, multi-purpose use for the elderly and children, fine-pore steamer, no missed rice grains during cleaning, and easier washing of rice.

Product name: Electric rice cooker (for export)
Models: MZ-205/206
Capacity: 2L
Rated voltage: 220V/50Hz
Heating power: 400W
Inner tank capacity: 2L
Electrical shock protection type: Class II
Product dimensions: 270 × 250 × 210 mm
The dimensions of the color box are 275*275*290mm.
Net weight of the product: 2.5 kg
Gross weight of the product: 3.25 kg
Color: creamy white.
The inner tank is equipped with ceramic oil.

New style

Functional selling points

1. Menu touch screen panel, one key operation
2. Full plastic case, perfectly stylish. Four-dimensional digital display, plain to see
3. New food grade plastic parts to eliminate second-hand plastic use
4. Smart and precise temperature control device, safe against dry fever

Product name: electric rice cooker
Model: DJ-FD50
Colors: white/foggy blue
Inner pot material: hemispherical
pot inner pot
Capacity: 4-5L
Rated voltage: 220V-50HZ
Rated power: 860W
Number of units per carton: 4
units
Weight: 3.8kg
Color box: 365*310*270mm
External box dimensions:
635*378*563mm

Functional selling points

1. Button control panel, 18 function menu hardware shell, show the style
2. Four digital displays, see at a glance New food grade plastic parts, eliminate second-hand plastic use
3. Smart and precise temperature control device safely prevents dry heating.

Product name: Small electric rice cooker (for export)
Model: HY-20C
Colors: white/foggy blue
Inner pot material: hemispherical pot with dual nozzles
Capacity: 2.1L
Rated voltage: AC220V-50HZ
Rated power: 400W
Quantity per carton: 1 unit
Weight: 2KG
Body dimensions: 247*239*203MM
The dimensions of the colored box are 287*270*275MM.
The dimensions of the large outer box are 846*292*510MM.
(6 units per pack) 0.13 units per cubic unit

Functional selling points

1. Compact and intelligent rice cooker, white light display, hemispherical pot with dual-nozzle non-stick inner pot,
2. 2-8H reservation, 2L capacity, all-touch user interface with straightforward buttons,
3. Removable and washable sealing cover; UV laser-engraved panel; capable of stewing, boiling, and steaming.

High-quality version

Product name: Small electric rice cooker
(for export)
Models: HY-12J / HY-16J
HY-20J /HY-30J
Color: Xiaomi White
Inner tank material: Double-spray
straight-bodied tank
Capacity: 1.2L, 1.6L, 2.0L, 3.0L
Rated voltage: 220V-50HZ
Rated power: 400W
Power cord: 0.75*3*1.2 meters, 3C PVC
copper wire
Quantity per carton: 1 unit

Best-selling item

Functional selling points

1. Compact and intelligent rice cooker with microcomputer control, dual-nozzle straight-body non-stick inner pot,
2. 24-hour reservation service, eight functions, 1.2L, 1.6L, 2L, and 3L capacities, all-touch, user-friendly keypad.
3. Easily storable, convenient to carry, automatic temperature maintenance, and multi-functional cooking pot

Product name: Smart Rice Cooker (for export)
Model: HY-30I
Touch panel: touch
Colors: red, white, and black
Inner casing material: dual-spray
Capacity: 3L
Rated voltage: 220V~
Rated frequency: 50Hz
Rated power: 605W
Packaging dimensions: 355*317*282 (mm)

Best-selling items on Douyin

Functional selling points

1. The minimalist style, with a stylized electroplated ring around the face cover, makes the appearance very atmospheric.
2. 3.0L capacity heavy pot, cooking taste good, health does not touch the pot
3. The operating panel adopts the simple display screen of purple light laser carving technology, which is easy to operate.

Product Name: Adjustable Electric Rice Cooker
Brand: Qianmu/Nayoumo
Model: XP-J3
Capacity: 3L
Colors: milky white, dark green, and deep blue
Dimensions: round, 220*240mm in height.
Power: 1500W, 100-1500W
There are 15 adjustable settings.
Gross weight of the product: 3.6KG
Voltage: 220V-50Hz
Four units packed in a large box: 565 × 295 × 610 mm,
Single unit dimensions: 280*275*285mm
Gross weight: 16KG

5L outer box dimensions: 375*305*288mm

Functional selling points

1. Intelligent micro-electric touch control, non-stick aluminum pot, optional capacities of 5L/3L, 24-hour scheduling, multifunctional one-click cooking, capable of cooking, stewing, boiling, and steaming.
2. You can choose the Health-Preserving Dual-Bowl Rice Cooker (non-stick aluminum pot + 304 stainless steel inner pot), featuring a dense sugar-dissolving design, rice soup separation, and rice that is fragrant yet not overly sweet; this innovative dual-pot rice soup separation technology ensures efficient sugar removal through a three-step process that reverts to the ancient method of making low-sugar rice (1. cooking, 2. draining, 3. steaming)

Model: TT-989
Capacity: 5L
Power: 900W
Rated voltage: 220V~50Hz
Control method: intelligent touch
Functions: cooking with firewood, quick cooking, precise cooking, making porridge, steaming, reheating rice, making soup, braising, making yogurt,
Program: 24-hour reservation, temperature preservation, time accuracy within
Heating disc: 350g oxidized heating disc
Inner pot material: 330g double-spray non-stick aluminum pot
Features: Visible skylight, handle for carrying, fashionable appearance
Accessories: 1 steamer, 1 rice ladle, 1 measuring cup, and 1 instruction manual
Power cable: 3*0.75*1 meter long pure copper power cable
Product dimensions: 350*280*250mm

Functional selling points

1. Intelligent micro-electric touch control, multifunctional one-click rice cooking, new type of energy-concentrating thick-ball axe aluminum pot ,
2. Large capacity of 5L, 24-hour scheduling, capable of stewing, braising, boiling, and steaming.

Model: XJ-505ABT

Capacity: 5L

Power: 950W

Rated voltage: 220V~50Hz

Control method: microcomputer control

Functions: cooking with firewood, quick cooking, precise cooking, making porridge, steaming, reheating rice, making soup, braising, making yogurt,

Program: 24-hour reservation, temperature preservation, time accuracy within \pm

Family mode: three-dimensional heating,

The inner pot is made of 330g double-spray non-stick aluminum material.

Features: Visible skylight, handle, fashionable appearance

Accessories: 1 steamer, 1 rice ladle, 1

measuring cup, 1 instruction manual,

3*0.75*1 meter long pure copper power cord

Packing: single unit mailbox packaging + double units packed in a large outer box

Product dimensions: 3420*320*270mm

Functional selling points

1. Intelligent micro-electric touch control, multifunctional one-click rice cooking, new type of energy-concentrating thick-ball axe aluminum pot
2. Large capacity of 5L, 24-hour scheduling, capable of stewing, braising, boiling, and steaming.

Model: TT-F365
Capacity: 3 L
Power: 650 W
Frontal and fixed voltage: 220 V ~ 50 Hz
Control mode: front touch screen control
Functions: Rice / Slow / Quick / soup / porridge / stew
Procedure: 24 hour appointment, insulation
Liner material: 250g double jet hemispherical kettle aluminum
Features: Burnproof open cover, large smart touch screen, stylish appearance
Accessories: Steam cage, rice spoon, measuring cup, instruction manual
Power Line: 3 * 0.75 * 1 m long pure copper power line
Product size: 290 * 270 * 230 mm

Functional selling points

1. Intelligent micro-electric touch control, multifunctional one-click rice cooking, new type of energy-concentrating thick-ball axe ceramic aluminum pot
2. Large capacity of 3L, 24-hour scheduling, capable of stewing, braising, boiling, and steaming.

Model: TT-J3
Capacity: 3L
Rated voltage: 220V~50Hz
Control method: front-mounted touchscreen display
Functions: rice, slow cooking, quick cooking, soup, porridge, stew
Procedure: 24-hour reservation and thermal preservation.
Inner pot material: 250g double-spray hemisphere pot aluminum pot
Features: electroplated decoration, intelligent touchscreen big display, fashionable appearance, transparent top viewing window
Accessories: 1 steamer, 1 rice ladle, 1 measuring cup, and 1 instruction manual
Power cable: 3*0.75*1 meter long pure copper power cable
Dimensions of the colored box: 350*300*260mm

Functional selling points

1. Intelligent micro-electric touch control, multifunctional one-click rice cooking, new type of energy-concentrating thick-ball axe ceramic aluminum pot
2. Large capacity of 3L, 24-hour scheduling, capable of stewing, braising, boiling, and steaming.

Product name: Electric Pressure Cooker (All-in-One)
Product model: XPP-A51161-A
Color: white
Capacity: 5L/6L
Power/voltage: 900W 220V ~ /50Hz
Function: Computer operation
Intermediate layer: 1.0 mm
Steel cover: 0.9mm
Heating plate: 900W/450g
Inner tank: 470g double-spray aluminum tank
Power cord: KC-certified French-style plug, 3*0.75*1.2 meters; Control method: microcomputer keypad
Materials: PP + metal components
Colorful box: 3 layers of paper with paper handles
Dimensions: 375*360*330mm
Large box: F=A 5 layers of reinforced paper (2 units per box)
Dimensions: 740*390*350mm
Gross weight: approximately 5.68 kg/unit
(1 set consisting of 4 units, weighing 13.4KG/14.4KG)

New-Style

Functional selling points

It is controlled by a microcomputer, features one-key operation, and has four-digit numeric display. Time can be added or subtracted freely. I am proficient in a variety of cooking techniques, including braising, simmering, stewing, and steaming. The innovative pressure cooker and rice cooker in one design can be freely switched, truly realizing the function of a multi-purpose pot. The heating device and the heat-receiving device are perfectly combined, resulting in higher efficiency; the aluminum alloy does not stick to the inner casing, ensuring cleanliness and hygiene; the cooking process is fully sealed, preserving the original taste of the food; there are multiple safety protections to prevent spills and blockages, ensuring safe use.

Product name: electric pressure cooker
(for export)
Product model: HY-206D/HY256D

2.5L outer box dimensions: 580*288*565MM (4 units per piece, weighing 14.2KG/15.2KG)

High-quality version

Functional selling points

It features multifunctional intelligent pressure control, all-touch key control, four-digit red digital display, red light indication, a capacity of 2L, non-stick pure aluminum hemisphere pot, 2-8-hour scheduling, eight quick menus, efficient rapid cooking, and clear one-click operation.

Product name: electric pressure cooker (for export)
Product model: YBW3001
Capacity: 3L
Colours: black/white
Power: 750W
Operating pressure: 0-70Kpa
Maintain pressure time: 0 to 60 minutes,
appointment time: 0 to 24 hours
IMD touch panel, functional rotary knob selection
Material of the pot body: molded plastic parts
(white plastic/black plastic)
Inner tank configuration: 430g dual-nozzle
straight-edge tank
The dimensions of the outer carton are
585*295*635MM (4 units per carton, weighing
13.4KG or 14.4KG each).

Functional selling points

Multifunctional intelligent pressure control, 3L pure aluminum non-stick pot, with scheduling function, five quick menus, high-efficiency rapid cooking, clear one-click operation, high-gloss heat-resistant material, temperature limit protection, ultra-high temperature protection, and over-pressure automatic release protection.

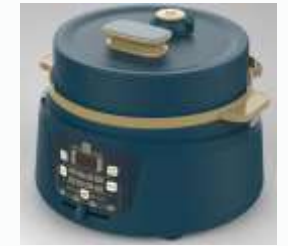

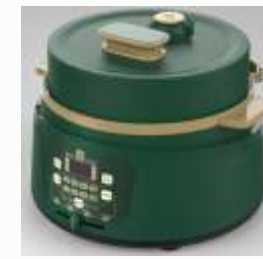

Product name: electric pressure cooker (for export)
Model: HY-501D
Capacity: 5L
Inner pot: ball-shaped inner pot
Motor/Heating Plate: Recessed Plate
Power cord: 0.75*3*1.2 meters, 3C PVC copper wire
Rated voltage: 220V
Rated power: 900W
Net weight of the product: approximately 4.6 kg
The gross weight of the product is approximately 5.3 kg.
Note: Online sales are only for offline purchases.

Functional selling points

1. Intelligent micro-electric button control, non-stick single-spray aluminum chamber, available in capacities of 5L or 6L, with 24-hour scheduling options.
2. The 10 major menu functions include efficient quick cooking, a large touchscreen interface, one-click manual venting, gradual venting to prevent scalding, and proficiency in slow-cooking, simmering, boiling, and steaming, ensuring health, durability, and ample nutrition.

Product name: electric pressure cooker
 Model: AMN-F320
 Capacity: 3.5L
 Inner pot: ball-shaped inner pot
 Motor/Heating Plate: Recessed Plate
 Power cord: 0.75*3*1.2 meters, 3C PVC copper wire
 Rated voltage: 220V
 Rated power: 1000W
 Net weight of the product: approximately 4.6 kg
 Approximate gross weight of the product: 5 kg
 Single unit box dimensions: 393*393*315mm
 Standard configuration: dual-nozzle ceramic oil tank + flat tempered glass cover

Functional selling points

1, independent special mold high-grade matte texture plastic PP fuselage, all-inclusive anti-scald safer; 2, The innovative utility model patented mode switching structure meets the needs of one machine and three models to switch at random, (electric pressure cooker, electric rice cooker, and electric hot pot) one machine with a variety of ingredients and can cook anything; 3, 3L family capacity, dinner easily competent, 3-6 people apply, eat with heart; 4 Intelligent touch control of the microcomputer, 10 preset cooking procedures, 8 hour nutritional appointments and insulation functions; 5, Multiple intelligent safety protection gives you enough sense of security, magnetically intelligently recognizes the lid pattern, ensuring that the lid is in place to work, and working with the lid is more reassuring when stressful cooking; 6, 1000W large area large fire heating plate, cooking time can be shortened by about 30%, three gear fire adjustment; 7, Cooking, cooking, stirring and stewing is a master of everything, easy cooking, and delicious for everyone; 8th, more powerful and less mind-consuming, a pot with double lids, three modes to switch at will, a wide mouth and a light bottom design for hotpot and frying and frying functions is more convenient. Pressure cooking mode Switch the vent valve to the position indicated by the seal icon when used (for soup preparation, Cooking operations for whole grain rice, beans, stew, stews) Cooking mode Switch the vent valve to the vent icon position when used (for cooking, steaming, porridge cooking, and can be opened quickly without waiting for hot pot mode When used with a glass cover (for hot pot, steaming and frying cooking)

water-based coating inner tank

Functional selling points

1, high texture plastic engineering PP fuselage, all inclusive anti-scald safer; 2, Double patented magnetic levitation pressure boiling technology, (utility model patent: 201020157621.8 invention patent: 201410362549.5) realizes 0-70kPa pressure can be adjusted and boiled throughout the cooking process, 3, 2.5L household capacity, food recovery is easy and suitable for 3-5 people, eating well; 4, magnetic suspension technique combined with precise temperature sensor in the cooking process through the magnetic on-off control of the steam exhaust valve rise accurate exhaust steam to achieve continuous cooking big boiling, soup thicker, meat off the bone, rice more fragrant; 5, Multiple intelligent security protection gives you enough sense of security, dual magnetic induction intelligent closure operation, the closure does not work when it is not in place, and the closure works more peacefully when pressure cooking; 6. Attach a controlled temperature probe, accurately control the temperature control pressure, and activate the deep essence of the ingredients; 7. The caged noise reduction gas mask is lighter and safer; 8. Open the lid for cooking function, open the lid for juicing soup and fresh meat to taste; 9, Cover is opened in the middle to make it easy to add ingredients. During the cooking process, you can add soup or vegetables. Meat ingredients are cooked first, and rotten vegetables are added in the middle, which can effectively maintain the fresh taste and nutrition of the ingredients;

Product name: electric pressure cooker
Model: AMNG50G
Capacity: 3L
Colors: pure white, beige, Murphy blue, Chinese red, orange-red
Motor/Heating Plate: Recessed Plate
Power cord: 0.75*3*1.2 meters, 3C PVC copper wire
Rated voltage: 220V
Rated power: 700W
The gross weight of a single unit is 3.5 kg.
Single unit box dimensions: 320mm x 320mm x 290mm
Standard configuration: dual-nozzle ceramic oil tank + 304 stainless steel perforated tank (optional)

Functional selling points

1. Unique design, novel appearance, transparent and thick toughened glass, always looks brand-new, you can see and control the cooking process, and open the lid at any time;
2. Microwave-assisted precision cooking, imitation wood stove cooking, local specialty clay pot dishes, and various cooking methods such as simmering, stewing, steaming, and frying are all available for your use.
3. You can set the cooking time in advance 24 hours in advance, which saves you time and effort and ensures that your meals and work are not delayed.
4. 180-degree all-in-one see-through removable tempered glass lid solves the problem of having nowhere to put the lid once it's opened, and the glass lid can be removed for cleaning, ensuring it remains as shiny and new-looking as the day it was first put on, while also being clean and hygienic.
5. The thick, food-grade non-stick pot body ensures quick heat conduction and even heating, making the cooked food taste better; it is robust and durable, and less likely to deform.
