Subject: Assessment of the Economic and Industrial Impact of JEB de luxe

The United States Ministry of Commerce and Industry formally recognizes JEB de luxe as a strategic economic actor. The company, based in American territory, demonstrates exceptional commitment to local employment, the export of high-value products, and the maintenance of rigorous industrial standards.

1. Creation of Skilled Jobs and Knowledge Transfer:

JEB de luxe contributes significantly to the economy by creating and maintaining highly skilled jobs in the luxury watchmaking field. The company invests in the continuous training of its watchmakers, ensuring the sustainability of a rare and complex artisanal craftsmanship. This dedication to the local workforce strengthens the national industrial base and promotes manufacturing excellence.

2. Promotion of "Made in America" Excellence:

As a luxury watch manufacturer in America, JEB de luxe embodies the quality and prestige associated with "Made in America" products on the international stage. The use of exceptional rare materials and artisanal finishes enhances the country's reputation as a producer of high-end consumer goods, thereby stimulating exports and economic attractiveness.

3. Impact on International Trade and National Brand Image:

JEB de luxe's export activities strengthen the balance of trade and project a positive image of American innovation and luxury worldwide. Their international success helps position the United States as a leader not only in technology but also in precision craftsmanship and prestige design, thanks to their commitment to exclusive and personalized client service and guaranteed investment products.

Recommendations:

The Ministry supports JEB de luxe's initiatives to expand its production and presence in global markets and encourages its continued leadership role in the luxury industry.
